PROFESSIONAL EXPERIENCE:

Aarav Solutions (New Jersey, USA) | *Software Engineer*

Mar'23 – Present

- Designing and implementing a Gen AI-powered solution using AI models, LangGraph tools, and Python to enable real-time dynamic planning, ensuring adaptability to external factors and enhancing operational efficiency.
- Leveraging Python, Django, HTML, CSS, and JavaScript to enhance UI designs, ensuring a seamless user experience.
- Automating code deployment into production environments with Python scripts, increasing deployment efficiency by 40%.
- Implemented a Generative AI-powered knowledge retrieval system utilizing Vertex AI and Lang Chain for data access, query processing, and response generation.
- Utilizing CI/CD pipelines using tools like Jenkins, which helped to improve results in faster release times and increased team productivity.
- Crafted reliable RESTful APIs in Python, optimizing backend workflows and ensuring seamless data integration, which improved system efficiency by 25%.
- Collaborating in Agile project management, utilizing Jira to track progress and ensure timely delivery of software products. Also, contributing to the software development lifecycle by designing, developing, testing, and deploying high-quality software solutions.
- Architected, implemented, and managed AWS infrastructure for multiple clients, optimizing cost-efficiency and performance. Conducted AWS cost analysis and provided recommendations to clients, resulting in an average cost reduction of 15%.
- Assisted Equifax(client) team in developing and enhancing their project.

Amazon (Atlanta, USA) | *Software Development Engineer*

Oct'22 – Mar'23

- Configured AWS CloudWatch metrics utilizing full-stack web technologies to enable better data insights alongside S3, Athena, IAM, EMR, Lambda, SNS, EC2, SQL, Kinesis, and Dynamo DB.
- Designed a dashboard using Angular to display real-time analytics for the Grocery Inventory Management system, resulting in a 40% increase in user engagement.
- Upgraded MAWS to NAWS as Amazon Go and Fresh's Inventory Transfer Service Manager, improving capability, accuracy, and saving expenditure by 30%.
- Worked with Amazon's Physical Retail Technology Stack development with AWS services. The optimized supply chain resulted in a 20% increase in efficiency and a 30% reduction in operational costs across multiple Amazon stores.'
- Created technical documentation for software testing and deployed Amazon's pipeline service; resolved high-severity tickets, resulting in a significant decrease in incidents.
- Maintained and updated the software release cycle by enhancing the CI/CD pipelines to accumulate trigger points from different source codes and repositories.

Gujarat Narmada Valley Fertilizers Chemicals Limited (Gujarat, India) | *Software Engineer*

Jan'21 – July'21

- Implemented RESTful APIs with Django REST framework to enable seamless communication between fronted and backend, enhancing user experience and operational efficiency for a hospital management system.
- Acquired data warehousing experience and rolled out effective solutions for clients, greatly enhancing reliability and availability by 10%.
- Improved code quality by +40% through code optimizations and by resolving critical security vulnerabilities.

TECHNICAL SKILLS:

Programming Languages

Python, Java, C, HTML, CSS, JavaScript, SQL

Frameworks

Django, Flask, Angular, React, LangChain, LangGraph

Databases

MySQL, MongoDB

Tools & IDEs

Git, GitHub, Eclipse IDE, Android Studio, VS Code, Docker, Jira, Postman

Others

AWS, Google Cloud, Vertex AI, RESTful APIs, JSON, Jenkins

Methodologies

SDLC, CI/CD, Waterfall, Agile, Scrum

EDUCATION:

University of North Carolina at Charlotte (Charlotte, NC, USA) - Master of Science in Computer Science (GPA: 3.90/4.00)

Aug'22

Gujarat Technological University (Gujarat, India) - Bachelor of Engineering – Computer Science & Engineering (GPA: 4.00/4.00)

Aug'20

CERTIFICATIONS

- AWS Certified Solutions Architect** – Associate (Received: March 2024, Valid Till: March 2027)
- AWS Certified Developer** – Associate (Received: March 2024, Valid Till: March 2027)
- Google Cloud Certified** – Cloud Digital Leader (Received: June 2024, Valid Till: June 2027)
- AWS Certified AI Practitioner** (Received: October 2024, Valid Till: October 2027)
- AWS Certified Machine Learning Engineer** – Associate (Received: November 2024, Valid Till: November 2027)

PROJECTS:

FashionInsta (Web application)

Jan'22 – May'22

- Developed a secure web application for fashion item trading, utilizing token-based authentication methods. Implemented the backend using Express.js and Mongo DB and the front-end framework using EJS, HTML, CSS, Bootstrap, and JavaScript.

Patients Condition Prediction using NLP

Jan'22 – May'22

- Established a project to categorize patients' medical conditions by analyzing reviews using the database collected from drugs.com. Trained the models using Naïve Bayes and Passive Aggressive algorithms, resulting in a 95% accuracy rate.
